1. We believe the above chart accurately represents the differences between The Barkley and our biggest competitors, based on publicly available information at the time of this publication.
 2. Pricing based on rack rates of basic boarding and do not take into account luxury upgrades, discounts, loyalty programs or extended stays.
 3. The Barkley's price includes 24-hours of non-stop, on-site care. Pets at our biggest competitors are left alone/unattended all night long and only receive an average of 12-13 hours of supervision per day. As a result, we believe The Barkley provides superior care at a significantly less expensive cost per hour.
